

Making extraordinary moments happen for brave children!

Make-A-Wish Switzerland grants the most heartfelt wishes of children living with a serious medical condition to give them Hope, Strength and Joy.

Our children are battling daily illnesses such as cancer, cystic fibrosis, muscular dystrophy and many more serious medical conditions.

Granting magical wishes not only gives back the carefree sense of how childhood should be but can also have a profound and positive therapeutic impact.

We work closely with hospitals and healthcare professionals who believe that we help improve the quality of life of ill children.

Thank you for your support so that we may reach out to more children in need of some magic in their lives.

Meeting the person she most admires and who inspires her gave her great joy. And confirmed that this wonderful sportsman is a gentleman who cares about others.
